ALCiT ACHIEVES SOC 2 CERTIFICATION Demonstrating Commitment to Data Security

[Mississauga, Ontario] — ALCiT, a leading provider of Cybersecurity to Small and Medium organizations, proudly announces its successful attainment of SOC 2 (Service Organization Control 2) certification. This certification underscores ALCiT's unwavering commitment to maintaining its clients' data security and privacy standards. SOC 2 compliance is a rigorous and internationally recognized standard established by the American Institute of CPAs (AICPA) that focuses on customer data security, availability, processing integrity, confidentiality, and privacy. This certification validates that ALCiT has implemented and adheres to stringent security and privacy controls, policies, and procedures to protect customer data.

"We are thrilled to announce that ALCiT has achieved SOC 2 certification, a significant milestone in our ongoing commitment to providing a secure and trustworthy environment for our clients," said Loïc Calvez, Co-Founder and CEO at ALCiT. "This certification validates our dedication to data security and reinforces our clients' trust in us."

The SOC 2 certification process involves a rigorous assessment by independent auditors who evaluate an organization's adherence to the defined criteria. ALCiT's successful certification affirms that the company has implemented comprehensive information security policies and procedures to safeguard client data. By meeting these criteria, ALCiT assures its clients that their data is handled with the utmost care and complies with industry best practices.

ALCiT remains at the forefront of innovation and excellence in Cybersecurity, and the SOC 2 certification further solidifies its position as a trusted partner for organizations seeking the highest data security standards.

ALCiT was audited by [Prescient Assurance](#), a leader in security and compliance attestation for B2B, SAAS companies worldwide.
