ALCiT ACHIEVES SOC 2 Type 2 CERTIFICATION Reinforcing Its Commitment to Cybersecurity

[Mississauga, Ontario] – ALCiT, a leading provider of Cybersecurity dedicated to safeguarding small and medium organizations, is proud to announce its achievement of the SOC 2 Type 2 Certification. This rigorous certification underscores ALCiT's unwavering commitment to protecting customer data and maintaining the highest security standards.

The SOC 2 Type 2 certification is a testament to ALCiT's robust security controls and practices. Through an extensive audit process, ALCiT demonstrated its ability to safeguard customer data and systems, ensuring the confidentiality, integrity, availability, and privacy of information. This achievement validates ALCiT's dedication to providing their partners with the peace of mind they deserve. ALCiT remains at the forefront of innovation and excellence in Cybersecurity, and the SOC 2 certification further solidifies its position as a trusted partner for organizations seeking the highest data security standards.

"Achieving SOC 2 Type 2 certification is a testament to our team dedication to providing our clients with the most secure and reliable cybersecurity solutions," said Loïc Calvez, CEO & Co-Founder at ALCiT. "We understand that "smaller" organizations face unique cybersecurity challenges, and this certification not only validates our efforts to protect our clients but also solidifies our role as a trusted partner in their cybersecurity journey."

As cyber threats continue to evolve, Canadian organizations are increasingly becoming targets due to their often-limited resources and security infrastructure. ALCiT's SOC 2 Type 2 certification provides clients with confidence that their data is being protected by a provider that meets the highest industry standards. This certification also highlights ALCiT's proactive approach to addressing the ever-changing landscape of cybersecurity threats.

ALCiT was audited by [Prescient Assurance](#), a leader in security and compliance attestation for B2B, SAAS companies worldwide.
